EDUCATION

B.Tech – ECE

Sri Manakula Vinayagar
Engg. College, Puducherry
2023–2027 | CGPA: 9.0

Higher Secondary

Kannagi Girls Govt. HSS
2022–2023 | 88.33%

High School (SSLC)

IHM Govt. Girls High School
2020–2021 | 80%

TECHNICAL SKILLS

- Java
- Python
- C
- Arduino IDE
- Cisco Packet Tracer
- DSA
- OOP
- IoT Systems
- Network Analysis

SOFT SKILLS

- Analytical Thinking
- Problem-Solving
- Team Collaboration
- Quick Learner

LANGUAGES

- English
- Tamil

CAREER OBJECTIVE

Enthusiastic Electronics and Communication Engineering student with a strong interest in Embedded Systems, IoT, and software-hardware integration. Possessing hands-on experience in microcontroller-based projects, wireless communication systems, and application development. Eager to apply technical knowledge, problem-solving abilities, and a continuous learning mindset to contribute effectively in an embedded systems environment while gaining practical industry experience and developing innovative technology solutions.

INTERNSHIP EXPERIENCE

Flutter Developer Intern

Relietech, Puducherry

June 2025

- Gained hands-on exposure to mobile application development using Flutter, building and iterating on real-world UI components.
- Designed modular application views by translating conceptual software layouts into functional, responsive mobile screens.
- Enhanced agile team collaboration skills and improved understanding of mobile app architecture and development lifecycle.

ACADEMIC PROJECTS

Real-Time Speed Breaker Detection & Alert System

- Developed a real-time speed breaker detection system using sensors and embedded technology to enhance road safety and driver awareness.
- Implemented automated alert mechanisms to notify users of upcoming speed breakers, improving navigation and reducing accident risks.
- Integrated hardware and software components to ensure accurate detection, reliable data processing, and efficient system performance.

Wireless Network Connectivity Analyzer

- Developed a network health monitoring system using an ESP32 microprocessor paired with an advanced SIM communication module.
- Coded modules to capture, parse, and analyze connectivity metrics to identify optimal wireless communication baselines.

CERTIFICATIONS & ACHIEVEMENTS

- **Amazon Future Engineer Bootcamp:** Completed tracks in Python Fundamentals, Java Fundamentals, and Data Structures & Algorithms.
- **Introduction to IoT (NPTEL):** Achieved Elite Silver certification category with an 80% score.
- **Technical Paper Presentation (DIGITRIX 2K24):** Authored and presented a paper on AI and data-driven decision-making at the National Level Symposium, Achariya Arts & Science College, Puducherry.

EXTRA-CURRICULAR ACTIVITIES

- **Demosthenes Debate Club – Active Member:** Participated in structured debates and discussions, sharpening public speaking, critical thinking, and spontaneous articulation skills.
- **ISTE – Active Member:** Contributed ideas and collaborated in a team-oriented environment fostering technological innovation and continuous learning.
